

# About our Sponsors & Partners

Microsoft's mission is deeply inclusive: empower every person and every organization on the planet to achieve more. We expect each of us—no matter what our level, role or function is—to play an active role in creating environments where people of a diverse range of backgrounds are excited to bring all of who they are and do their best work.

DoorDash is a technology company that connects people with the best in their cities. We do this by empowering local businesses and in turn, generate new ways for people to earn, work and live. We started by facilitating door-to-door delivery, but we see this as just the beginning of connecting people with possibility — easier evenings, happier days, bigger savings accounts, wider nets and stronger communities.
